

Respiratory Care

Product Catalog

Breathing Easy with Medline

You'll find solutions for all your patients, from neonates in hospitals to adults at home, in our wide selection of respiratory products. With over 350,000 different items for the entire continuum of care, Medline is the largest privately held manufacturer and distributor of healthcare supplies in the United States. Plus, we have teams of experienced clinicians and product specialists who understand the challenges of providing respiratory care.

Improving Clinical Outcomes. At Medline, we constantly seek out and develop products that can help improve outcomes in respiratory patient populations. Our portfolio spans acute to long-term, pediatric to geriatric and facility to home-based care.

Improved Respiratory Tools. The needs of the respiratory caregiver and the needs of the respiratory patient are what inspires Medline. The knowledge and insights from fellow respiratory professionals help us to continuously improve our products.

Business and Value-Oriented. Our wide selection includes a variety of products for every aspect of good respiratory care, so you can customize ordering and maximize savings. Respiratory products are, and always will be, an integral component of the overall value you have come to expect from Medline.

OXYGEN

Medline's extensive breadth of oxygen delivery products includes all your everyday essentials along with some innovative solutions. Our SuperSoft Nasal Cannulas are made of a soft material that is very gentle on skin. So soft, in fact, that bulky foam ear cushions are no longer needed, which can reduce costs while improving patient care.

SuperSoft Nasal Cannulas

Fight breakdown of delicate skin.

Even with only short-term oxygen cannula use, sores can develop on the skin of a patient's ears and cheeks. Medline's SuperSoft nasal cannulas provide a gentle solution. SuperSoft is made of an advanced material that is soft, flexible and non-sticky. You'll notice the difference right away!

- THE ULTIMATE IN PATIENT CARE
- CRUSH-RESISTANT TUBING
- LATEX FREE

Maintain skin integrity

- Reduce pressure and friction on delicate ear and face tissue

Improve patient compliance with added comfort

- New patients are less apprehensive of wearing a cannula
- Existing patients can't believe how comfortable and gentle they are

Reduce costs

- Treat fewer cannula-related sores
- Bulky foam ear cushions are not needed

Item No.	Description	Connector	Pkg.
Adult			
HCSU4514S	7' (2.1 m) Tubing	Universal	50/cs
HCSU4510S	No Tubing, (Harness only)	Male	50/cs
HCSU4504S	4' (1.2 m) Tubing	Universal	50/cs

HCSU4511B	Straight Prongs, 7' (2.1 m) Tubing	Universal	50/cs
HCSU4511F	Flared Prongs, 7' (2.1 m) Tubing	Universal	50/cs

HCS4511F

HCS4511B

SuperSoft High-Flow Cannula

Made of an exceptionally soft material for increased patient comfort.

- Adult liter flow from 6LPM to 15LPM
- Pediatric liter flow up to 7LPM
- For use with high-flow bubble humidifiers

HCSU4514HF

Item No.	Description	Connector	Pkg.
Adult			
HCSU4514HF	7' (2.1 m) Tubing	Universal	25/cs
HCS4510HF	No Tubing (Harness Only)	Male	10/cs
HCSU4504HF	4' (1.2 m) Tubing	Universal	10/cs
HCSU4516HF	14' (4.3 m) Tubing	Universal	10/cs
HCSU4515HF	25' (7.6 m) Tubing	Universal	10/cs
Pediatric			
HCSU4518HF	Pediatric, 7' (2.1 m) Tubing	Universal	10/cs
HCSU4517HF	Infant, 7' (2.1 m) Tubing	Universal	10/cs
HCSU4520HF	Neonate, 7' (2.1 m) Tubing	Universal	10/cs
HCSU4521HF	Premature, 7' (2.1 m) Tubing	Universal	10/cs

CO₂ Sampling Cannula

For Simultaneous CO₂ Monitoring & Oxygen Delivery

- Stacked design for consistent CO₂ readings
- Universal oxygen connector fits any flowmeter with no need for an adapter
- Oxygen delivered through the bottom ports below the nasal prongs
- Latex free

Simultaneous CO₂ Monitoring & Oxygen Delivery

Universal O₂ Connector

Universal Luer Connector

Item No.	O2 Tubing	CO2 Tubing	Luer Connector	Pkg.
Adult				
HCS4561	7' (2.1 m)	4" (10.2 cm) Pigtail	Universal	25/cs
HCS4565	10' (3.05 m)	10' (3.05 m)	Universal	25/cs
HCS4566	14' (4.3 m)	14' (4.3 m)	Universal	25/cs

Aerosol Masks

Extra patient comfort comes from an anatomical form and a soft, light and comfortable vinyl material.

- Elastic straps and adjustable nose clip for secure fit
- Standard 22 mm connector
- Latex-free

Item No.	Description	Pkg.
Adult		
HCS4630B	Elongated Aerosol Mask	50/cs
HCS4632	Face Tent with 22 mm Connector	50/cs
HCS245E	Trach Mask	50/cs
Pediatric		
HCS4631B	Aerosol Mask	50/cs
HCS4621B	Trach Mask	50/cs
Corrugated Tubing		
HCS4541	Tubing, 6" (15.2 cm), Blue	50/cs
HSK600	Segmented Tubing, 100' (30.5 m), Opaque with cuttable cuff every 6" (15.2 cm)	each
HSK626	Segmented Tubing, 6' (1.8 m), Opaque	50/cs

Did you know

There are approximately 1500 miles of airways in the lungs.

Blenders

Tenacore blenders require very little maintenance and last for years.

- Compact size
- Warranty: two years (manufacturer)

High Flow

Low Flow

TCTH = TENACORE HIGH-LOW FLOW AIR/OXYGEN BLENDER
TCTL = TENACORE LOW FLOW AIR/OXYGEN BLENDER

DD - Left Port	EE - Right Port	F - Bottom Port	GG - Accessories
NN = None	NN = None	NN = None	NN = None
NI = NIST	NI = NIST	1 = NIST	01 = Blender Wall Mount
DI = DISS	DI = DISS	2 = DISS	02 = Blender Mount with Pole Clamp
01 = 0-1 LPM Flowmeter	01 = 0-1 LPM Flowmeter		03 = Blender Mount with Eclipse® or Fairfield Equipment Rail Bracket
02 = 0-200 cc Flowmeter	02 = 0-200 cc Flowmeter		04 = Blender Mount with Unimount Equipment Rail Bracket
03 = 0-3 LPM Flowmeter	03 = 0-3 LPM Flowmeter		
04 = 0-15 LPM Flowmeter	04 = 0-15 LPM Flowmeter		
05 = 0-12 LPM Flowmeter	05 = 0-12 LPM Flowmeter		
06 = 10-70 LPM Flowmeter	06 = 10-70 LPM Flowmeter		

EXAMPLE: TCTHDI04202 is a high flow blender, left port DISS, right port 1-15 LPM flowmeter with DISS bottom port and wall mount with pole clamp.

Medical Gas Hose Assemblies

Tenacore offers custom-configured medical gas hose assemblies in five easy steps:

- Select conductive or non-conductive hose
- Select the inlet fitting (gas service and type)
- Select gas service
- Select the outlet fitting (gas service and type)
- Specify the hose length

TCT = Tenacore Hose Assembly

X = Hose Type (1/4" ID for pressure gases, 5/16" ID for vacuum)

A = 1/4" ID Non-Conductive
C = 5/16" ID Non-Conductive

B = 1/4" ID Conductive
D = 5/16" ID Conductive

AAA = Gas Service

OXY = Oxygen
VAC = Vacuum
N2O = Nitrous Oxide
INA = Instrument Air

AIR = Medical Air
NIT = Nitrogen
CO2 = Carbon Dioxide
WAG = Waste Anesthetic Gas Disposal

B = Inlet Fitting (Connects to the Source)

A = 1/8" Male Pipe Thread
C = 1/4" Male Pipe Thread
E = DISS Female Hex Nut
G = Chemetron® Adapter
I = Puritan-Bennet Adapter
K = Schrader Adapter, Swivel

B = 1/8" Female Pipe Thread
D = 1/4" Female Pipe Thread
F = DISS Female Hand-tight
H = Ohmeda® Adapter
J = Schrader Adapter, Non-Swivel

C = Outlet Fitting (Connects to the Medical Device)

A = 1/8" Male Pipe Thread
C = 1/4" Male Pipe Thread
E = DISS Male with Check
G = DISS Female Hand-tight
I = DISS Male, NO CHECK, with Grip
K = Ohmeda Coupler
M = Schrader Coupler

B = 1/8" Female Pipe Thread
D = 1/4" Female Pipe Thread
F = DISS Female Hex Nut
H = DISS Male, NO CHECK
J = Chemetron Coupler
L = Puritan-Bennet Coupler

DDD = Hose Length, in Inches (e.g. 036, 048, 144, etc.)

EXAMPLE: TCTAOXYFE060 1/4" ID non-conductive oxygen hose assembly with a DISS female hand-tight inlet and a DISS male with check outlet, 60" in length.

Gentec® Flowmeters

Antimicrobial*, environmentally friendly, and exclusively distributed nationwide by Medline.

- Antimicrobial and environmentally friendly additive in the rotary knobs*
- For both oxygen and medical air
- Thoroughly tested for accuracy
- Durable polycarbonate hood and metering tube
- Available in nickel plated solid brass or aluminum
- Stainless steel ball float
- Warranty: ten years (manufacturer)

- Dual flowmeter with 2 power take-offs, also available

SPECIFICATIONS:

Weight (No Adapter): Aluminum Body: 4.24 oz/122 gm
Brass Body: 6.64 oz/188 gm

Increment: 0-6 LPM in ½ LPM increment,
6-15 LPM in 1 LPM Increment

Flush Flow Rate: 65 LPM (depending on supply flow)

Max Inlet Pressure: 100 psig

PTO Flow Rate: Over 100 LPM (depending on supply flow)

* This product does not protect users or others against disease-causing bacteria.

Gentec Neonatal, Perinatal and Specialty Flowmeters

The performance and accuracy you need for critical care applications for neonate through adult patients.

- 200 cc and 1 LPM models are designed for perinatal and neonatal applications where extreme accuracy under very low flow is required
- Available for oxygen and air
- Acrylic block provides a strong flow tube
- Maximum inlet pressure: 100 PSI
- Outlet: DISS male (9/16"-18UNF)
- Calibrated at 500 PSI
- Warranty: five years (manufacturer)

Sofnolime[®] 2550 CO₂ Absorber for Anesthesia Systems

A high-performance absorber offering more savings from less product usage.

- Unique D-shaped particles for increased absorption levels
- USP-grade and FDA-approved
- White-to-violet color change for quick visual indication of effectiveness/need to change
- Consistently absorbs 140–150 liters of CO₂ per kilogram of product
- Available in prepackaged cartridges and easy-pour 3-lb. bags
- KOH-free formulation and 16% moisture content to minimize the risk of CO accumulation or compound A drying out
- Dust content is typically 75% lower than USP standards, for free airflow and less contamination risk

ASTHMA MANAGEMENT & MEDICATION DELIVERY

We take great pride in offering you a comprehensive selection of advanced products for asthma management. Our Aeromist Plus™ Nebulizer Compressor is compact and durable, and it takes up very little space.

Nebulizer Compressors	18
Pediatric Nebulizer Compressor	19
Portable Battery-Operated Nebulizer Compressor	20
Handheld Nebulizers	21
MDI Spacers	22
Peak Flow Meters	23
Bubble Humidifiers Respiratory Solutions	24
Sterile Saline Solution	24

Aeromist Plus™

Nebulizer Compressor

Combining a superb design with exceptional ease of use.

Superb design

- Compact – Small footprint, so it easily fits on small surfaces
- Durable – Hard plastic shell and molded handle with no breakable hinges
- Stable – Low center of gravity when laying flat on the four non-skid rubber feet
- Convenient power cord storage – Entire cord can be kept inside the shell
- Includes nebulizer kit – Both reusable and disposable

Includes convenient instructional DVD (HCS60004RD only)

- Provides easy, step-by-step instructions
- Minimizes the need for clinicians to explain proper usage
- Perfect for drop-shipping directly to patients or storing in physician closets
- Multi-lingual (English and Spanish)

HCS60004 Specifications

Method of nebulization: dry piston compressor
 Electrical requirements: 115VAC/60Hz
 Sound noise level ≤ 60 dBA

See page 21 for our replacement nebulizer kit options

Item No.	Description	Pkg.
HCS60004	Nebulizer Compressor, Disposable Nebulizer Kit	10/cs
HCS60004RD	Standard Nebulizer Compressor, Disposable and Reusable Kits, Instructional DVD	10/cs
HCS60004F	Replacement filters for HCS60004 and HCS60004RD	10/pk

HCSDOGNEB

Pediatric Nebulizer Compressor

The friendly eyes and red tongue make children smile, while the high quality and durability ensure safe and effective aerosol treatments.

- One compressor with multiple configurations

See page 21 for our replacement nebulizer kit options

HCSDOGNEB Specifications

Method of nebulization: dry piston compressor

Electrical requirements: 120V / 60Hz

Sound noise level \leq 60 dBA

Item No.	Description	Pkg.
HCSDOGNEB	Pediatric Nebulizer Compressor, Includes: <ul style="list-style-type: none"> · Adult Mask · Pediatric Mask · Pacifier Nebulizer · Angle Mouthpiece · Disposable Medicine Cup · 7' Tubing · 5 Filters · Carry Bag 	8/cs

HCS60004F	Replacement Filters for HCSDOGNEB	10/pk

Portable Battery-Operated Nebulizer Compressors

Better compliance – treatments can be easily taken, anytime and anywhere.

- Small footprint and a sleek design
- Battery operated
- Compact and light weight
- Compatible with any jet nebulizer
- Suitable for travel
- Warranty: two years for the compressor, 6 months for the battery

Kit includes:

- Carry case
- AC/DC adapter
- Adult and pediatric masks
- 5 replacement filters
- Mouthpiece
- Medicine cup
- 7' (2.13 m) oxygen tubing
- Manual

HCS2GO

Item No.	Description	Pkg.
HCS2GO	Portable Battery-Operated Nebulizer Compressor Kit, Includes: <ul style="list-style-type: none"> • Disposable Handheld Nebulizer with 7' Tubing • Rechargeable Battery 	each

[See page 21 for our replacement nebulizer kit options](#)

Did you know

The surface area of a person's lungs is roughly the same size as one side of a tennis court.

Handheld Nebulizers

Medline offers a wide selection of reusable (up to 6 months use) and disposable (up to 2 weeks use) nebulizer kits for asthma medication delivery.

- Ideal particle size of less than five microns, increasing the amount of medication delivered deep within lungs
- Standard fittings accommodate most clinical applications
- Latex free
- Medicine can be added without removing the cap
- Each kit includes a medicine cup, 7' (2.1 m) of kink resistant extension tubing, and either a mask or a mouthpiece with a T adapter
- Packaged 50/cs except WST0382 WST0382 packaged 12/cs

MDI Spacers

Improve compliance by simplifying delivery of medication with intuitive MDI spacers.

- Deliver more medication directly to the lungs
- Ensure the optimal medication particle size
- Help avoid some of the unpleasant taste of inhaled medications
- Our wide variety includes models with mask interfaces and a collapsible model for convenient travel

Peak Flow Meters

Help patients monitor their asthma so they can initiate preemptive therapy.

- Each meter is individually calibrated to ensure accuracy
- Durable for years of reliable performance
- Latex-free

Item No.	Description	Pkg.
HCSPF100	Portable Peak Flow Meter, Full Range, 60-720 LPM	12/bx
HCSPF200	Standard Peak Flow Meter, Full Range, 60-850 LPM	12/bx
HCSPF210	Standard Flow Meter (Pediatric), Low Range, 30-400 LPM	12/bx
HCSPF220	Disposable Pediatric Mouthpiece, One-Way Valve	20/bx
HCSPF300	Digital Peak Flow Meter, Full Range, 60-850 LPM	each
HCSPF262	Disposable Adult Mouthpiece, One-Way Valve	100/bx

Windmill Trainer

- Provides a visual cue that the peak flow meter is being used correctly
- Fun and easy to use, helps patients remember their testing routines
- Fits most peak flow meters in this catalog

AIRWAY CLEARANCE

To minimize the potential for trauma to delicate airway tissues while maximizing suctioning, suction catheters have to be just the right size. Our complete selection includes 6Fr and 8Fr open suction catheters for newborn, infant and child airways. For adult airways, we offer 10Fr and larger suction catheters. With Medline, you have one convenient source for all your airway clearance needs.

Promotes Better Protection from Cross-Contamination.

In an independent laboratory evaluation, Medline suction catheters with the Contro-Vac valve were compared to leading manufacturers' catheters with chimney valves. The results: **Medline's Contro-Vac valve was more effective at preventing the release of contaminants during suctioning.**¹

Medline's Contro-Vac Valve

Traditional Chimney-Valve Catheter

Suction Catheter Kits and Trays (D409 Series)

Choose from a full range of sizes and multiple packaging options with Medline's suction catheter kits and trays.

- All kits contain high-quality Medline Aloetouch® 3G Stretch Synthetic gloves to help soothe dry hands
- Minimize trauma potential with any airway size while improving suctioning with the right tip, eyes and French size
- 8 Fr sizes have DeLee tips and staggered Murphy eyes; 10Fr and larger sizes have whistle tips and lateral Murphy eyes

Sleeved Catheters (D407 Series)

The sleeves around these open suction catheters help reduce the possibility of cross-contamination.

- Sleeved catheter and cup (kits only) help reduce cross-contamination

Didyouknow

We can build a custom kit to your exact specifications. Medline is a leading manufacturer of custom procedure kits.

Positive-Click jaws hold tight to help prevent disconnect. Releases easily with a twist

Longer, **easy-grip jaws** make the inner cannula easier to remove

Dual "ramps" make a positive-click connection with the ventilator connector jaws

Smaller corrugations, tapered inner walls and flush-fit with cannula let inline suction catheters pass with ease

360 degree swivel for better movement and less torsion on the inner cannula

Phoneris® & Aeroflex®

Inner Cannula & Ventilator Circuit Connector

Decrease the likelihood of ventilator disconnections.

The Phoneris/Aeroflex system offers significant design improvements over similar tracheostomy inner cannula and ventilator connectors. A better design for connecting tracheostomy patients and ventilators.

- Safer – A secure connection reduces risk of accidental or incidental disconnects
- Gentler – Swivel enables comfortable movement; less torsion on stoma
- Easier – No need for improvised, unapproved securing devices

Item No.	Description	Pkg.
Replacement Disposable Inner Cannulas for SHILEY® Tracheostomy Tubes		
HCSTIC4	#4 Phoneris Inner Cannula	25/bx
HCSTIC6	#6 Phoneris Inner Cannula	25/bx

Ventilator Circuit Connector		
HCSTIC4681	Aeroflex Positive-Click ventilator connector	50/bx

TrachVox® Tracheal-Connected Heat and Moisture Exchanger

Innovative technology helps spontaneously breathing tracheostomy patients to verbally communicate.

- When depressed, the HME changes the airway flow and makes speaking possible
- Comfortable, compact and lightweight
- Minimizes tracheostomy tube movement
- Heats and humidifies inspired air of spontaneously breathing patients
- Delivers supplemental oxygen through integrated port
- Allows for forced inspiration, expiration and suctioning
- Meets ISO 9360-1
- Standard 15 mm connector

24-Hour Closed Suction Catheters

Improve patient care while saving staff time with Medline's 24-hour closed suction catheters.

- Less physiologic disturbance – the PEEP (positive end expiratory pressure) is preserved and the small air sacs and alveoli in the lungs remain open
- Reduced chance of complications – closed suction catheters may decrease complications associated with suctioning and alveolar derecruitment²
- Studies show that a focused education program using a common protocol can improve clinical outcomes and reduce costs of medical care.³
- Color-coded locking valves

Gentec[®] Suction Regulators

Exclusively distributed nationwide by Medline.

- Antimicrobial and environmentally friendly additive in the rotary knobs and selector switches*
- Extremely durable
- Continuous-only and continuous/intermittent designs
- Available with a variety of inlet and outlet fittings and suction trap assemblies
- Warranty: ten years (manufacturer)

User-friendly mode selector

Large, user-friendly mode selector switch and a 1.25" (3.2 cm) diameter adjustment knob

Large diameter gauge and Easy-to-read numbers

Large 2.5" (6.4 cm) diameter gauge with glow-in-the dark scale and arrow

Color-coded

Color-coded to help facilities manage inventory and allocation across different departments

Antimicrobial additive

Rotary knobs and selector switches are made with an antimicrobial additive*

Continuous/Intermittent (881 series)

- Available with ranges of 0-160 mmHg and 0-300 mmHg
- Settings include continuous, off and intermittent
- Factory default settings for on/off cycles are 16 seconds (± 2) on, 8 seconds (± 2) off; on/off settings can be adjusted without opening the case (controls are not accessible without tools)

Continuous Only (882 Series)

- Available with ranges of 0-300 mmHg and 0-760 mmHg
- Settings include regulated, off and full

**This product does not protect users or others against disease-causing bacteria.*

SUCTION REGULATOR ORDERING MATRIX

INSTRUCTIONS:

Select suction regulator, adapter then fitting (steps 1-3). Combine codes to create model number, then write chosen color. See example below.

CPAP

Breathing stops. Blood oxygenation plummets. The brain panics and responds: Stop! Hey! Wake up! Breathe! With a snore or a snort, the breathing begins again and you drift back to sleep. Until the next episode. For the sleep apnea patient, this scenario may play out hundreds of times during one night of sleep. Not only does it mean poor quality sleep and drowsy, accident-prone days, it also is associated with heart attack, arrhythmias, hypertension, stroke and diabetes.⁴

CPAP Machine	38

CPAP110

CPAP112

Continuous Positive Airway Pressure (CPAP) by Medline

In obstructive sleep apnea treatments, Medline's CPAP unit delivers precise, reliable therapy to your sleep apnea patients.

Effective Treatments

- 4-20 cm H₂O pressure range
- Variance <0.5 cm H₂O (low), <1.0 cm H₂O (high)
- 3-level expiratory unloading technology (EUT) makes exhalation easier

Continuing Care

- SD card stores patient data for 365 nights
- USB connectivity with AutoManager PC software
- Washable/disposable air filters
- Power failure alarm

Patient Comfort

- Optional humidifier warms and moistens air for greater comfort and compliance
- 0-60 minute ramp time, auto-on/auto-off setting
- Library-quiet at <29 dB at 10 cm H₂O

Item No.	Description	Pkg.
CPAP100	CPAP Blower with Humidifier	each
CPAP110	CPAP Blower Only (No Humidifier)	each
CPAP112	CPAP Replacement Humidifier	each

Silicone CPAP Masks

A consistent seal without excessive tightness, delivering the prescribed therapy with enough comfort to help improve compliance.

- OmniClip and silicone forehead pad for a custom fit at the bridge of the nose for patients of all head shapes and sizes
- SilentVent elbow flushes out exhaled air quietly, without an additional inline exhalation port
- Headgear attaches with convenient clips, includes a handy wash bag to keep it clean and fresh
- Cushions, forehead pads, elbows, cones and clips are individually replaceable
- Available in four sizes, with and without headgear

AIRgel™ CPAP Masks

Amazing comfort with advanced gel cushioning and customized fit technology.

- Proprietary AIRgel cushioning minimizes discomfort and skin irritation while effectively sealing airflow
- The flexible and formable mask provides a custom fit – flex, fit and forget!

iQ Blue® Nasal Gel Mask

- One-size nasal mask design fits a wide variety of patients
- Clearest field of vision possible with no forehead pad required – patients can keep their glasses on while reading or watching TV
- Easy on-and-off thanks to quick release, breathable headgear

Mojo® Full-Face Gel Mask

- Full-face design in three sizes
- Adjustable tension wheel minimizes discomfort while ergonomic cushions adapt to unique facial features for a comfortable fit
- Magnetic headgear clips hold firmly and disconnects with one hand easy on-and-off

MiniMe® 2 Pediatric Gel Mask

- Nasal mask in two sizes, designed for children ages 2 to 12
- Touchless spacebar eliminates the need for any forehead contact
- Soft, breathable headgear for all-night comfort
- Available in vented and non vented designs

FILTRATION & HUMIDIFICATION

Exceptional value comes from more than just low prices. You need a supplier who offers the breadth of products to help you reduce orders and save time, with quality you can count on. Our selection includes a comprehensive line of filtration and humidification products that meet or exceed the guidelines of the American Association for Respiratory Care (AARC).⁵

OXYGEN REGULATORS & CARTS

The annoying hiss of a pneumatic conserver can reduce a patient's compliance with recommended treatment. Our EconO₂mizer II Single-Lumen Pneumatic Conservor is among the quietest pneumatic conserving devices available today. It features six conserving flow settings – including 2.5 – and it weighs just 13-oz. At Medline, we constantly strive to provide innovative tools for helping you improve patient outcomes.

HCS2CON1L

EconO₂mizer II

Single-Lumen Pneumatic Conservers

Less noise, for better compliance

Among the quietest pneumatic conserving devices available!

- Very quiet with no hissing during pulse delivery
- Aids in compliance with ambulatory patients
- 6 conserving flow settings (1, 2, 2.5, 3, 4, & 5)
- 3 continuous settings (2, 3, & 4)
- Features all-brass construction in high-pressure zones
- Weight: 13-oz.
- Size: 4.8" x 2.4" x 1.5" (12.2 cm x 6.1 cm x 3.8 cm)
- 5.7:1 conserving ratio

Item No.	Description	Pkg.
HCS2CON1L	Single-Lumen Pneumatic Conservers - 870 connection	each

EconO₂mizer Dual-Lumen Conserving Device

A breakthrough in conserving-device technology!

- All-brass diaphragm and 4:1 conserving ratio for fewer service calls
- Light and compact
- 0-6 LPM
- Dual mode for conserving and continuous flows
- 11 settings for each mode (no additional regulator required)
- Solid brass core

RESUSCITATION

A vital medical device, the manual resuscitator helps an unconscious person who is not breathing to remain oxygenated.

At Medline, we're proud to offer a wide variety of high-quality, innovative resuscitators.

Manual Resuscitators

54

Manual Resuscitator Ordering Guide

55

Mouth-to-Mask Resuscitators with Valve

56

CPRM1126

Prominent, universal O₂ tubing connector

Manual Resuscitators

Innovations provide clinicians with improved ease of use. Available in infant, pediatric and adult sizes.

A Better Bag

- Delivers up to 99% FIO₂
- Maneuverable – The body of the bag swivels 360 degrees for multiple clinician hand positions, helping to reduce clinician fatigue
- Translucent – The translucent, lightweight bag body and components allow for visualization of vomitus or occlusions in the system
- Textured – Provides an enhanced, non-slip grip
- Repositionable – The patient port swivels 360 degrees, allowing the clinician freedom to move around the patient without placing excessive torque or stress on the tracheal tube or mask

An Improved Mask

- Firmly Sealing– Premium material provides a soft cushion and a firm seal

HCS64184	Mouth-to-Mask Resuscitator with Valve	12/cs

Did you know

Effective bystander CPR provided immediately after sudden cardiac arrest can double or triple a victim's chance of survival, but only 32 percent of cardiac arrest victims get CPR from a bystander.⁶

PATIENT MONITORING & ACCESSORIES

With Medline, you'll find everything you need to measure a patient's pulse, blood oxygen saturation, and more. Your clinicians can quickly and easily monitor oxygen saturation and heart rate with our light and compact fingertip pulse oximeters. Our handheld pulse oximeters feature visual and audible alarms, including a remote alarm through the nurse call system.

Fingertip Pulse Oximeters

Medline's rugged fingertip pulse oximeters provide quick and accurate SpO₂ readings – anywhere, anytime!

- Accurate
- 8 second shut off feature helps save battery life
- Multi-directional display is readable from any angle (excludes Fingertip Pulse Oximeter BCE300C61)
- Light weight for comfort and convenience
- Comfortable
- Easy-to-use
- Batteries included

Item No.	Description	Pkg.
HCSFSATSPORT	FingerSAT® Sport <ul style="list-style-type: none"> • Durable Silicone Boot Provides Protection During Accidental Drops • Improves Readability By Blocking Ambient Light • Multi-Directional Color Display • Warranty: Two Years 	each
HCSM70	Deluxe Fingertip Pulse Oximeter <ul style="list-style-type: none"> • OLED Color Display • Durable Plastic Construction • Warranty: Two Years 	each
BCE300C61	Fingertip Pulse Oximeter <ul style="list-style-type: none"> • Durable Plastic Construction • Warranty: One Year 	each
BCE300C53	Pediatric Fingertip Pulse Oximeter <ul style="list-style-type: none"> • LED Color Display • Silicone Protective Cover • Frog Shape • Warranty: One Year 	each
HCSM70A	Pediatric Fingertip Pulse Oximeter <ul style="list-style-type: none"> • Large LED Display • Silicone Protective Cover • Duck Shape • Warranty: Two Years 	each

Handheld Oximeters

Dependable and easy-to-use pulse oximeters with alarms for spot checks and continuous monitoring.

SPECTRO₂[®] 30 Digital Pulse Oximetry System

- Visual and audible alarms, including a remote alarm through the nurse call system
- Low perfusion
- Motion tolerance
- 4 AA batteries

SPECTRO₂[®] 10 Pulse Oximetry System

- Large, bright LED display
- Simple, one-handed operation
- Durable construction
- Comfort clip finger sensor
- 4 AA batteries

Medline MD300

- LED color display
- The touch of a button adjusts to your choice of two readout sizes and ten levels of brightness
- 8 second shut off feature helps save battery life
- Protective silicone cover included

Item No.	Description	Pkg.
BCIWW1030	SPECTRO ₂ 30 Continuous Pulse Oximetry System with 20" (50.8 cm) Comfort Clip Finger Sensor	each
BCIWW1000	SPECTRO ₂ 10 Spot Check Pulse Oximetry System with 20" (50.8 cm) Spot-Check Sensor	each
HCSMD300	Handheld Spot Check Oximeter with 30" (70 cm) Adult Finger Probe Sensor	each

Pulse Oximeter Probes

Medline has probes for a wide variety of pulse oximeters, including handheld and tabletop models, such as the popular 7-pin Nellcor® and 9-pin BCI®.

- Probe choices for unique requirements, materials and applications
- Disposable probes in neonatal through adult sizes
- Reusable probes in pediatric and adult sizes
- Micro-Foam for easy sensor application and repositioning, Medplast for maximum adhesive for long-term use in one location, or Transpore for transparency with repositioning
